DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-12 and 22-28, drawn to a retractable rear projection screen,
 classified in class 359, subclass 461.
 - II. Claims 13-21 and 29-30, drawn to a scanning device, classified in class 359, subclass 17.
- 2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a holographic scanner to form an image, a high precision beam scanner that is able to shape the beam and reduce aberration of the scanning beam. See MPEP § 806.05(d).
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
